Subject: Risk Assessment Models

Wolf,

There will be a one-day meeting in NY to discuss risk assessment on March 2.
It may be worth considering having you or Von Holt present. If a visit is made
I would suggest a visit to Richmond to talk with Rick Solana about risk assessment
net for materials evaluation purposes.
Please give me a call so that we can discuss this further.

Thank you,
George

topic risk assessment models

do we do our own risk ass. on ETS +
DEE ?

EPA used for ETS

By cant. , RJR (Physicians?)

Excel spread sheet → DSEA

Material evaluation (by product) acceptable
crystal ball (RJR) limits
